

How to Customize Interior Light-Dimming Time

7" Color Touch-Screen Models

You can customize how long the interior lights stay on after closing the doors. On models with the 7" color touch-screen, it's done through the driver information interface using the controls on the left side of the steering wheel.

- 1 With the vehicle in Park, turn the power on.
- 2 Press the HOME button on the steering wheel.
- 3 Roll the selector wheel to the settings gear icon, and press.
- 4 Scroll to Lighting Setup and press.
- 5 Scroll to Interior Light Dimming Time and press.
- 6 Scroll to and select 60 seconds, 30 seconds or 15 seconds.
- 7 Press the HOME button to leave the settings menu.

See your vehicle's Owner's Manual for even more details. You can download one at mygarage.honda.com.
