

How to Use the Panoramic Moonroof

Select models are equipped with a panoramic power moonroof and power sunshade. Here's how they're operated with the switches in the overhead console.

Power Moonroof:

- To open the moonroof automatically to the comfort position with reduced wind noise, pull back firmly on the moonroof switch and release it; the sunshade will open automatically as well.
- To fully open the moonroof, pull the switch back until the moonroof stops.
- To close the moonroof, firmly push the switch forward and release it.
- To manually operate the moonroof, lightly pull or push on the switch until the desired position is reached.
- To tilt the moonroof up, push on the center of the moonroof switch; the sunshade will open automatically.
- To close the moonroof from the tilt position, firmly push the switch forward.

Power Sunshade:

- To fully open the sunshade, pull back firmly on the sunshade switch and release it.
- To close the sunshade, firmly push the switch forward and release it.
- To operate the sunshade manually, lightly pull or push on the switch until the desired position is reached.
