

How to Customize Interior Light-Dimming Time – Civic Hatchback with 9" Color Touch-Screen

Some Honda models come standard with 9" color touch-screen, which can be used to customize several features, including how long the interior lighting stays on after you close the doors.

Follow these steps:

1. With the vehicle in **Park**, turn the ignition to **Accessory** or **On**
2. Touch **Settings**
3. Touch **Vehicle Settings**
4. Touch **Lighting Setup**
5. Select **Interior Light Dimming Time**
6. Select from: **60sec, 30sec, 15sec**
7. Confirm your choice
