No Sonata Hybrid has a feature to match the benefits of RDM

TSR standard

Accord Hybrid's **Traffic Sign Recognition (TSR)**³ helps make for greater driver awareness

nope

Sonata Hybrid drivers can't experience a feature like TSR

2021 Accord Hybrid vs. 2021 Sonata Hybrid

The Verdict: Accord Hybrid wins this matchup on several fronts. It provides:

- More power for much livelier responsiveness
- Greater spaciousness—especially in the rear seat
- More accommodating comfort and convenience features
- More standard safety and driver-assistive features

¹48 city/48 highway/48 combined mpg rating for Hybrid, Hybrid EX and Hybrid EX-L trims. 44 city/41 highway/43 combined mpg rating for the Hybrid Touring trim. Based on 2021 EPA mileage ratings. Use for comparison purposes only. Your mileage will vary depending on how you drive and maintain your vehicle, driving conditions, battery-pack age/condition and other factors. ²Road Departure Mitigation only alerts drivers when lane drift is detected without a turn signal in use and can apply mild steering torque to assist driver in maintaining proper lane position and/or brake pressure to slow the vehicle's departure from a detected lane. RDM may not detect all lane markings or lane departures; accuracy will vary based on weather, speed and road condition. System operation affected by extreme interior heat. Driver remains responsible for safely operating vehicle and avoiding collisions. ³TSR cannot detect all traffic signs and may misidentify certain signs. Accuracy will vary based on weather and other factors. System operation affected by extreme interior heat. Driver remains responsible for complying with all traffic regulations.
