

How to Use the Moonroof

With the power ON, you can open or close the available moonroof and sunshade as you desire. You can also tilt the rear of the moonroof up to vent the cabin. These features are operated by three toggle switches in the overhead console.

To Open or Close Moonroof (Toggle Switch 1)

- To express-open the moonroof to the comfort position, push and release the switch.
- To fully express-open the moonroof, push and release the switch again.
- To fully express-close the moonroof, pull and release the switch.
- To manually open the moonroof to a desired position, push and hold the switch until the position is reached.
- To manually close the moonroof to a desired position, pull and hold the switch until the position is reached.

To Open or Close Sunshade (Toggle Switch 2)

- To express-open the sunshade, push and release the switch.
- To express-close the sunshade, pull and release the switch.
- Press or pull the switch again to stop the sunshade at a desired location.

Tilting the Moonroof Up (Toggle Switch 3)

- To tilt the rear of the moonroof up, push and release the switch.
- To close the moonroof, pull and release the switch.
