2025 Honda Civic Sedan vs 2025 Nissan Sentra

Key Comparisons	2025 Honda Civic Sedan	2025 Nissan Sentra
Horsepower	200 total system hp ¹ (Hybrids)	149 @ 6600 rpm
	150 @ 6400 rpm (2.0L, SAE net)	(No hybrid available)
EPA Fuel-Economy Ratings ² (city/hwy/comb)	50/47/49 (Hybrids) 32/41/36 (LX)	30/40/34 (S, SV)
Wheels	18" alloy standard on Sport and above	18" alloy standard on SR
Automatic Climate Control	Standard on all trims	Not Available on S, Extra Cost on SV
Adaptive Cruise Control (ACC) ³ w/Low Speed Follow	Standard on all trims	Not Available on S, no Low-Speed Follow on any trim
Power Moonroof	Standard on Sport Hybrid, Sport Touring Hybrid	Extra Cost on SV, SR
Rear Seat Reminder (RSR) ⁴	Standard on all trims	Not Available on any trim
Genuine Leather-Trimmed Seats	Standard on Sport Touring Hybrid	Extra Cost on SV

The Verdict: More power, higher fuel-economy ratings and a longer list of standard comfort, convenience and assistive features make the Honda Civic the winner in this showdown!

¹Total system horsepower (ISO net) as measured by the peak, concurrent output of the two electric motors and gasoline engine. ²Based on 2025 EPA mileage ratings. Use for comparison purposes only. Your mileage will vary depending on how you drive and maintain your vehicle, driving conditions and other factors. ³ACC cannot detect all objects ahead and may not detect a given object; accuracy will vary based on weather, speed and other factors. ACC should not be used in heavy traffic, poor weather or on winding roads. ACC only includes a limited braking function. Driver remains responsible for slowing or stopping the vehicle to avoid a collision. ⁴Rear seat reminder functions when a rear door has been opened prior to driving and will alert the driver to check for the presence of rear seat occupants when the vehicle is turned off. If the vehicle is turned off partway through a drive and the vehicle restarted without a rear door being opened, no alert will be provided the next time the vehicle is turned off.
