

# Honda Safety Performance Gets a Lot of Recognition.

Honda has long been a leader in advanced safety performance. And that leadership has been recognized by ratings agencies in their 2023 model-year assessments. For example, the National Highway Traffic Safety Administration (NHTSA) has granted a 5-Star Overall Vehicle Score<sup>1</sup>—the highest crash-safety rating possible—to every 2023 Honda model rated so far.

In addition, the Insurance Institute for Highway Safety (IIHS) has bestowed its coveted awards on several 2023 Honda models.

This recognition provides strong reassurance of the quality of Honda safety engineering. So you can drive with confidence in a Honda.

<sup>1</sup>Government 5-Star Safety Ratings are part of the National Highway Traffic Safety Administration's (NHTSA's) New Car Assessment Program ([www.safercar.gov](http://www.safercar.gov)). <sup>2</sup>To qualify for 2023 TOP SAFETY PICK, a vehicle must earn good ratings in the driver-side small overlap front, passenger-side small overlap front and original moderate overlap front tests and no less than acceptable in the updated side test. It also must earn an advanced or superior rating for daytime vehicle-to-pedestrian front crash prevention and come with standard acceptable- or good-rated headlights. <sup>3</sup>To qualify for 2023 TOP SAFETY PICK+, a vehicle must earn good ratings in the driver-side small overlap front, passenger-side small overlap front, original moderate overlap front and updated side tests. It also must earn an advanced or superior rating for both daytime and nighttime vehicle-to-pedestrian front crash prevention and come with standard acceptable- or good-rated headlights.
