

Honda Safety Performance Gets a Lot of Recognition.

Honda has long been a leader in advanced safety performance. And that leadership has been recognized by ratings agencies in their 2024 model-year assessments. For example, the National Highway Traffic Safety Administration (NHTSA) has granted a 5-Star Overall Vehicle Score¹—the highest crash-safety rating possible—to every 2024 Honda model rated so far.

And after implementing its most stringent testing ever, the Insurance Institute for Highway Safety (IIHS) has bestowed its coveted awards on several 2024 Honda models.

This recognition provides strong reassurance of the quality of Honda safety engineering. So you can drive with confidence in a Honda.
