Getting Started: Basic Features and Functions

BLUETOOTH® HANDSFREELINK AND VOICE COMMAND SYSTEM

Wirelessly connects your compatible cell phone to the vehicle's audio system, allowing for hands-free phone call operation. Turn on your phone's *Bluetooth* and make sure it's in discovery mode.

Phone Pairing – Press Settings, then Phone, and follow the procedure below:

MEDIA DEVICE PORTS

Allows connection of your compatible mobile device to your vehicle. Functions range from playing media, charging devices, and connecting to available Apple CarPlay® or Android Auto™ integration.

Front Console

USB Ports	1.5A	1.0A
Display Audio	•	•
Functions	Quick Charging	Charging
	Play Media	
	Android Auto™	
	Apple CarPlay®	Play Audio

HONDALINK® APP

The HondaLink® app for Clarity Plug-In Hybrid allows you to interact with and manage your vehicle's key features. For more information, visit www.hondalink.com. **Note:** Use HondaLink® app rather than HondaLink® EV app for this vehicle.

1 Find Stations:

Tap **Charge Stations** to locate charging stations.

2 Schedule Charge:

Tap to set times.

3 Remote Charge Control:

When connected, tap **Start Charge** to start vehicle charging.

REMOTE TRANSMITTER

Unlock button: Press once to unlock driver's door.

Lock button: Press to lock all doors.

Trunk button: Press to unlock the trunk.

Climate button: Within about five seconds after pressing lock button, press and hold Climate button to start the climate control system.

Panic button: Press to sound the alarm.

Charge lid button: Press and hold to unlock charge lid.

Built-in key: Slide the release knob on the back of the transmitter to pull out built-in key.

AUDIO SYSTEM CONTROLS

Your vehicle comes with one advanced, great-sounding audio system.

Display Audio

- **📶 button:** Press until the audio screen is displayed in the Driver Information Interface.
- **+ / - bar:** Press the ends of the bar to adjust audio volume.
- **◀ / ▶ buttons:** Change presets, tracks, or folders.

- **🔊 Audio Power**
- **🌙 Day/Night Button**

ADAPTIVE CRUISE CONTROL (ACC) WITH LOW SPEED FOLLOW

Helps maintain a constant vehicle speed and a set following-interval behind a vehicle detected ahead of yours and, if the detected vehicles comes to a stop, can decelerate and stop your vehicle, without you having to keep your foot on the brake or the accelerator.

How to activate the system:

Press the **MAIN** button on the steering wheel.

To set the vehicle speed when driving at about 25 mph or above:

Take your foot off the pedal and press down the **-/SET** button when you reach the desired speed. The moment you release the button, the set speed is fixed, and ACC with Low Speed Follow begins.

To set the vehicle speed when driving slower than about 25 mph:

If the vehicle is moving and the brake pedal is not depressed, pressing the **-/SET** button fixes the set speed to about 25 mph regardless of the current vehicle speed. If your vehicle is stationary, you can set the vehicle speed even with the brake pedal depressed.

To switch ACC to Cruise Control:

Press and hold the **RES** (interval) button for one second. **Cruise Mode Selected** appears on the driver information interface for two seconds, and then the mode switches to Cruise.

COLLISION MITIGATION BRAKING SYSTEM™ (CMBS™)

Can assist you when there is a possibility of your vehicle colliding with a vehicle or a pedestrian detected in front of yours.

The system provides visual, audible and tactile alerts of a possible collision.

To turn CMBS™ On and Off:

Press and hold the **OFF** button until the beeper sounds to switch the system on or off.

WALK AWAY AUTO LOCK®

Automatically locks vehicle when you walk away while carrying the remote transmitter. Especially useful when your hands are full or if you accidentally forget to lock your vehicle.

Follow the steps in the diagram:

1. Exit vehicle, close all doors, then stay close and listen for a beep indicating the system is activated.
2. Walk at least 5 feet away.
3. Listen for a beep and look for the lights to flash, which confirm the doors are locked.

If you hear multiple beeps in quick succession, this is an indication that the auto lock function did not activate. Check the following:

1. Make sure the smart entry remote is not in the vehicle.
2. All doors and trunk must be completely closed prior to walking away.

Note: You may experience interference due to proximity of mobile devices.

ACOUSTIC VEHICLE ALERTING SYSTEM

Alerts pedestrians when the vehicle transmission is in a position other than **P** (Park) and is traveling at speeds of 22 mph or less.
